

Please join us in making a difference together

Northern Health is looking for community members to join our Community Advisory Committee (CAC). The CAC is an advisory committee of the Northern Health Board, providing advice and oversight of consumer and community engagement.

Are you interested in providing a consumer perspective to promote consumer and community participation at Northern Health, to achieve better health care outcomes for the community?

We are seeking enthusiastic and motivated people who are able to represent the needs and views of patients and other users of our health service. We are aiming for diversity and a skill mix across the membership of the committee.

**Your experience of receiving health care as a patient or carer and a connection to your local community is essential.
Your ability to share ideas, listen, and be objective will be valued.
Support and training will be provided.**

Our staff will support you to join bi-monthly meetings online.
Please email expressions of interest to Sophie Rodier
